CAYMUS

CABERNET SAUVIGNON

Vintages

1990 - 1999

from an esteemed American collector
who has been acquiring wines for over thirty years.

These wines were purchased on release,
direct from the producer. Provenance is very
important to this meticulous collector,
and the wine has always been stored in
his temperature-controlled home cellar.

Caymus Vineyards is located on 73 acres in Rutherford - owned and farmed by the Wagner family, whose roots in the Napa Valley go back to the 1850s.

The Wagners borrowed the name Caymus from the Mexican land grant given to George Yount in 1836, which encompassed what

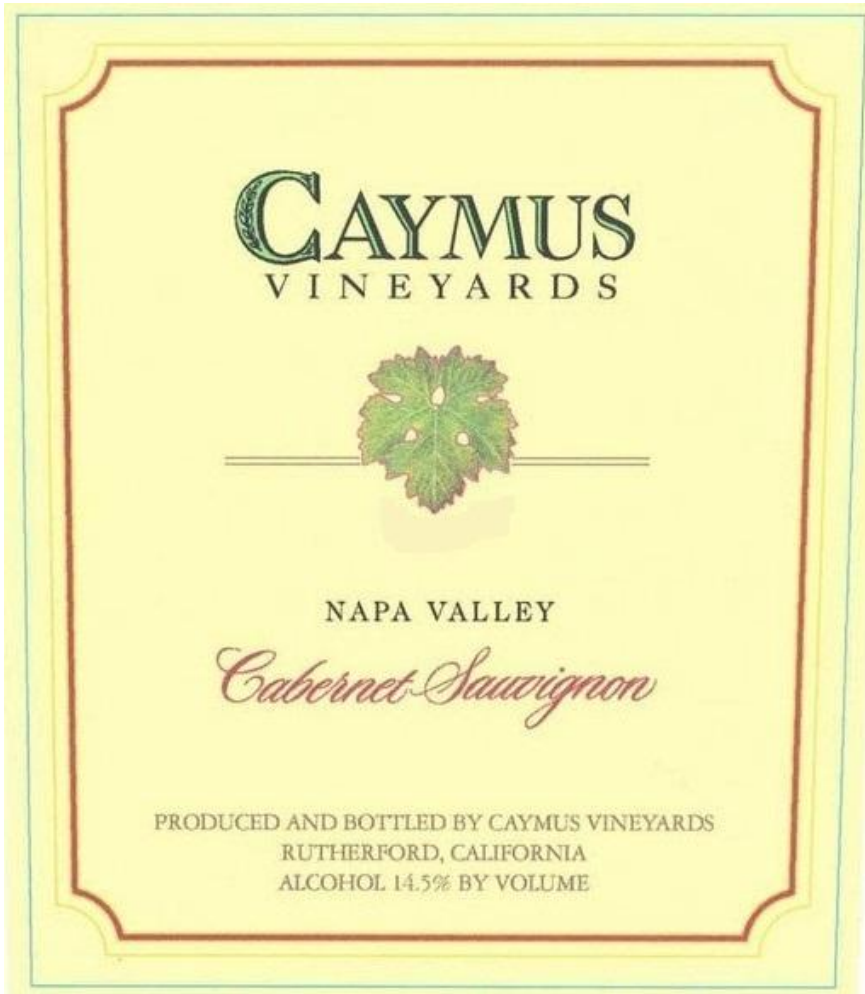

eventually became the town of Rutherford and much of the surrounding area.

Charlie and Lorna planted much of their original Cabernet Sauvignon in the 1960s, with vines that were sourced from the Fay Vineyard in the Stag's Leap. At the age of 19, Chuck joined his parents in founding the winery in 1971. They released their first vintage the following year, and have since then focused their efforts on the production of Cabernet Sauvignon.

In 1975, the Wagners produced their first Special Selection bottling, made from outstanding Cabernet Sauvignon lots of that vintage. Today, Caymus produces wines that are refined, richly textured and balanced that are approachable in their youth as well as will age and mature for many years in the cellar.
